

GUNUNG SLAMAT
a REKSO Company

INDONESIA'S TEA FOR THE WORLD

A photograph of a tea plantation with rows of green tea bushes under a bright sky. The image is partially obscured by a dark red circular graphic on the right side of the page.

VISION

To be the most trusted and recognized agricultural company both in the national and international communities

MISSION

- All estates of PT Gunung Slamet Plantation Division are internationally standard and highly competitive
- Conducting an efficient and environmental friendly technology in the area cultivation and processing
- To be a competitive agriculture trader in the global free trade market
- Consumer is our priority
- To bring creative and innovative working environment
- To provide benefits to the stakeholders

Niat Baik
Hasil Baik

ORTHODOX TEA

That is produced using traditional methods of tea production, which involve plucking, withering, rolling, oxidation/fermentation and drying.

CTC TEA

Crush, tear, curl (sometimes cut, tear, curl) is a method of processing black tea in which the leaves are passed through a series of cylindrical rollers with hundreds of sharp teeth that crush, tear, and curl the tea into small, hard pellets.

GREEN TEA

Green tea is made with a special treatment, doesn't fermented, but heating. Roasting tea leaves will give a strong aroma and flavor.
